BARRE, VT.

Are They Afraid?

There are, in this neighborhood, agents for several "bucket bowl" cream separators. "Bucket bowl" separators are the kind with wide mouth bowls, full of parts, set on top of their spindles. These agents say, to farmers intending to buy a separator, "Look out for the Tubular," or "Don't try the Tubular," or "Beware of the Tubular." To hear them talk you would guess right away that

THE SHARPLES TUBULAR

is the best cream separator made, and that these "bucket bowl" fellows are afraid of it. And they are afraid of it. The Tubular surpasses every other separator in every particular, and you should take good care you do see a Tubular before you buy a separator. I will be pleased to show you the latest Tubular and give you an illustrated catalog.
